

OUR STRENGTHS

- Preventative Maintenance
- Corrective Maintenance
- System Installations
- Emergency Repairs
- Start Up & Commissioning
- On-Site Project Management
- Chemical Inventory Management
- Site Coordination
- General Contracting
- Operator Rotations
- Operator Training / Supervision
- Refurbishment Programs
- Plant Audits / System Surveys
- Controller Maintenance & Repair
- Sensor Maintenance
- Pump/ Accessory Repairs
- Piping Installation
- Equipment Pool Management
- Remote Monitoring Programs

SPECIALIZED SERVICES

- Softener Services
- Media Change Over
- RO Membrane Cleaning
- RO Membrane Replacement
- Cooling Tower Cleaning
- Sludge Removal
- Sample Collection
- Water Testing
- Passivation Service
- Web Based Monitoring
- Equipment Rentals
- Trial Staffing
- Controls Integration
- Heat Tracing & Insulation

Asset Management Program

- Detailed Audit of Equipment Inventory
- Centralized Equipment Storage
- Repair & Refurbishment
- Web Based Inventory Tracking
- Rapid Equipment Deployment
- Reduces Costs
- Eliminates Waste
- Protects Investments

The water treatment business requires a wide range of related equipment. Specialty chemical companies offering water treatment programs use a spectrum of equipment to administer, control and monitor the results of these programs.

A company's pool of equipment is typically spread across the country in various stages of use. Some may be in use, others in storage and some in need of repair or refurbishment.

This equipment includes dosing pumps, controls, PLCs, conditioning vessels, tanks of all sizes, mixers, level controls, meters, sensors, recorders, data loggers, feed verification devices and a host of gauges, specialty valves and fittings. In addition, specialized performance monitoring and inspection tools are used to evaluate results.

Managing and tracking this expensive inventory of assets is a challenge that is addressed by the EquipSolutions Asset Management Program (AMP).

EquipSolutions works with our customers to reclaim their equipment assets that are no longer in use or are in storage. We will perform a detailed audit and place a value on the equipment. We will collect, refurbish, and warehouse the equipment until it's needed, eliminating the need to purchase new assets.

We offer our clients secure viewing of their assets via our website. On-line asset access allows our clients to instantaneously view existing inventories, procure equipment, assist with maintenance decision-making and eliminates long-lead times.
